How Emergency Childcare works

For Nurseries:

- Find a local nursery via the search button (if there is a particular nursery you want to use for back up childcare which is not listed then let us know - we will approach them on your behalf)
- Check availability and price per room
- Book the places you need

For Nannies:

- Check there is a branch of Tinies that covers your area (85% of the UK covered)
- Book the times and dates you need an emergency nanny for (all nannies are over 21, are referenced and interviewed, have relevant experience and have a first aid certificate and an enhanced disclosure from the CRB)
- Your local Tinies will then ring with details of the nanny
- Confirm you are happy to proceed - the nanny fulfils your back up childcare need
